

What is VoIP?

Voice over Internet Protocol

- Bell service is often called a “landline”
- Rogers Home Phone is like VoIP, but does not require the Internet

<http://www.rogers.com/web/support/home-phone/mpug/46?setLanguage=en>

- There are oodles of phone services that use the Internet

Watch Out, Read The Fine Print

- There are oodles of choices to make, fee comparisons are hard work
- Activation fees
- Contracts
- Long distance
- Features (eg voicemail, caller ID, call blocking)
- Hardware (ATA box, VoIP phones)
- 911, Alarms
